

COLOUR SOUND EXPERIMENT ltd

LONDON

JEDDAH

LOS ANGELES

JOB TITLE: JUNIOR CAD TECHNICIAN
LOCATION: LONDON, UK

NOW HIRING

JOB PACK // FEBRUARY 2024

WHO WE ARE

Colour Sound Experiment has spent the last 34 years at the forefront of creative immersive lighting displays, supplying equipment and crew to event productions.

Over the years we have heavily expanded and invested in new technologies and new territories, but are proud in that time to have also maintained our independence.

It allows us to be agile and retain the original ethos that has kept decades long relationships with clients and our teams strong and connected.

With warehouses now across three continents, the US is our new frontier, where we hope to better serve the many global touring clients we are already lucky to work with.

JOB ROLE: JUNIOR CAD TECHNICIAN

We're looking for a keen individual to produce technical drawings and renders for our events. We're looking for someone who really understands our ethos, a good sense of humour, a team player and an eye for detail.

Ideally proficient in WYSIWYG, Vectorworks, AutoCAD &/or Depence but training can be provided to the right candidate.

JOB ROLE: JUNIOR CAD TECHNICIAN

Role and Responsibilities:

- Generate / design technical drawings based on client concepts
- Organise and update CAD libraries including custom drawing blocks
- Design and produce renders for client purposes
- Assisting with the creation, sharing and updating of drawings for our regular venues/ sites/ projects.
- Assisting with the creation of technical manufacturing drawings for custom fabrications utilizing Auto CAD
- Creative collaboration with video, lighting and rigging to produce technical drawings
- Engage with Project Management to achieve accurate and up to date kit lists.
- Can update a text box.

PERSONAL QUALITIES, SKILLS AND ABILITIES

We're looking for someone who matches our values of industry passion, humour and creativity.

Someone who understands our kit, our crew and our clients, and how to show them in their best light.

Role Requirements:

- Experience in event industry and an interest in creative drawing
- Experience in digital content creation
- Familiarity with CAD and rendering software
- Knowledge of Adobe and Microsoft Office is key
- Ability to work independently and meet deadlines
- Strong communication and collaboration skills
- Experience in hands on rigging (assisting with test building/ trialing)

Desirable Skills:

- Experience in medium to large scale CAD drawings
- Operation of lighting console for the purpose of render creation
- Experience utilizing pre-visualization software

RENUMERATION AND BENEFITS PACKAGE

Salary range of £27–33k

Benefits package includes subsidised onsite canteen, cycle to work scheme, electric car scheme, optional medical insurance, mental health care and wellness initiatives
